

cmdline::CmdLine

```
classDiagram
    class CmdLineS["cmdline::CmdLineS"]
    class CmdLine["cmdline::CmdLine"]
    class CmdLineI["cmdline::CmdLineI"]
    CmdLineS --|> CmdLineI
    CmdLineI --|> CmdLine
```

The diagram illustrates a class hierarchy with three classes arranged vertically. At the top is the base class 'cmdline::CmdLine' in a white box. Below it is the intermediate class 'cmdline::CmdLineI' in a gray box. At the bottom is the derived class 'cmdline::CmdLineS' in a white box. A blue arrow points from 'cmdline::CmdLineS' up to 'cmdline::CmdLineI', and another blue arrow points from 'cmdline::CmdLineI' up to 'cmdline::CmdLine', indicating inheritance.
